				<p>I support the plan to make changes with derelict buildings and provide more water sports resources, things to do. I enjoy that there is more thought going into reducing poverty and increasing the quality of healthcare, etc. There are some fantastic ideas coming out.</p> <p>Personally I do believe though that the priority should be fixing what we currently have in the town. Including the building next to the wok inn on the corner of hanover street/ hanover square. That in my opinion should be knocked down.</p> <p>As for other buildings much could be helped with a lick of paint across almost every building/ shop. Not to mention the growing plant life from roofs and all over</p>	<p>As mentioned before, the look of the town is a main priority in my opinion. We need to be able to take pride in what we have and we can only do that if it looks the part. Once thats done it would be fantastic to think about new hubs, activities and so on.</p>

150	DG9	25	Don't know		Stranraer would benefit massively from a space with indoor fun for all. This would benefit families from isolation and needing to travel for a good day out with their children which is an extra cost and not always doable.

159	DG9	28	Yes - I like it!	<p>Feel like the town has potential that needs to be unlocked, a lot to be done in terms of attraction for various areas.</p>	<p>The look of strantaer to be prioritised, the store fronts and stop look drab, old and unappealing to even residents never mind visitors. The town centre should be a vibrant and welcoming place for visitors to attract business, for those visiting via train the landscape they are greeted with doesn't give people an overall good first impression, and the shops and town centre follow suit. There is work being done but if you are anywhere past superdug the appeal fades. As for spaces for young people an visitors to do activities, they are having to travel distances to do indoor activities, places like soft plays or activity centres would be a benefit to visitors and residents.</p>

				Any new change for the town is positive... some of the ideas are brilliant, and I'm sure will do a lot for the town we live and love.	I would like to understand more about the sustainability of some of the projects, and that if some grow bigger than the intentions what happens then... I also believe shops are landlords responsibility, bidding to do the fronts up in any shape or form for me is wrong, however appreciate the overall look for the town.

					Stranraer is full of hair dressers and barbers. We don't need any more. We need shops and businesses that we haven't got that will bring people and revenue to Stranraer.	Stranraer has a great space for musical talent. Maybe do more with the castle green like more music and events for young people and older people alike to showcase their talents. Maybe even a better market for people who make their own produce to come and sell at the castle green.

175	DG9	32	Don't know	I don't know enough about it.	I think the community requires more stores and an outlet type centre that would increase jobs and people to spend money in the town it would also increase visitors to the area.	The town needs to focus more on what the Stranraer people need for jobs, opportunities and money.
176	DG9	32	Yes - I like it!	Even before the Ferries left Stranraer the area needed some work. They have now been gone for a number of years and things have only got worse, especially on the sea front. This money should have been spent a long time ago, I am glad something is finally being done.		
177	DG9	32	Don't know		More indoor activities for kids such as laser tag or ten pin bowling would be ideal as our nearest is Ayr and many families don't have access to transport to be able to do this. The town centre needs a complete makeover so many empty shops, places closing down and just looks unkept. Not very inviting to tourists.

180	DG9	32	Don't know		Need activities for families and adults alike, as it stands now there's very little for locals to do never mind tourist's visiting the area. It will also bring more job opportunities to the area. We need more variety in things for people to do because as it stands for someone my age there's nothing to do in Stranraer and visitors will think the same	
181	DG9	32	Yes - I like it!	I support any plan which aims to provide increased employment and tourism opportunities for Stranraer.	I think all bar the prom/cycle option are sensible options. 				<p>Stranraer needs significantly more than £5million. I support any investment for the town. Although I'm not entirely sure whoever came up with this proposal knows what Stranraer really needs. The George Hotel should have been demolished. We don't need Art hubs. That caters to maybe 5% of the town. We need activities that keeps youth here. I have lived in Stranraer my whole life and I don't know anyone who has a boat, or even wants the marina. The "charities" who own the buildings in town that keep driving rent up are a huge issue. The local "leaders" who pat themselves on the back at award shows, who suck money from the town while stopping new and fresh businesses coming here are a problem. A makeover is simply painting</p>	<p>Community Hub is pointless. We have the millennium centre and no one knows what it's for. The sanctuary is pointless. We live in the countryside, there's so much activities already here. Makeover would be nice buy doesn't solve anything. Housing in the town centre isn't needed, but it would be nice to see businesses back in the town centre. The Pier needs something anything to get the ball rolling. And wet weather activities is vital. We have youth in the town with nothing to do. Tourism is important but keeping families here is the key to Stranraer surviving.</p>	<p>Most of my comments so far have been negative. But I am extremely proud to see that someone has stepped up and actually is doing something. I haven't seen anything advertised for this until recently which is a shame. The town has or had a community council where most on the council were more concerned about the smidge of power they had instead of what's good for the town. That was a few years ago now, haven't heard much from them since. The new skate park was a good idea. But I think the waterfront would have been perfect for a larger skate park and using the influence of Kriss Kyle we could have encouraged competitions or demonstrations.</p>

				We need Stranraer transformed into a town people are proud of and want to stay in and develop	I think the outdoor side of things is important for kids and adults alike, try to get a sense of community with the dicks hill hub, support families and educate them to grow their own food, share and support each other

				I feel there are other areas in the town that need a massive upgrade, especially Agnew park. As a parent who spends a lot of time here with my two children, I feel the likes of the go kart track needs massively upgraded as it's very difficult for children to pedal on as it's all bumpy and uneven, and they could do with new go karts. And also the play equipment needs updating, and more risk taking adventure play equipment is needed especially for older children	Definitely more is needed for families to do on wet days that is affordable instead of having to travel out with Stranraer. More business should be encouraged into Stranraer and rates should be affordable rather than just for a year

				I support some parts of the bid but not all. There is a need for decent shops in town but over the years have been blocked by the same shop owners. People wont shop in Stranraer if they cant use the shops they want. Whats the point in turning the empty shops into housing. There is enough housing in Stranraer.

				<p>A positive plan to develop and improve Stranraer is long overdue. Realistic and positive ideas should be supported to make the town better for us and future generations.</p>	<p>It's hard to choose and these are great ideas. Personally I feel if the service is being delivered already now might not be the time to move it's location or reshape how it's delivered. I feel the focus should be on a meaningful change to the pier (an eye sore for way too long) and doing something with the town centre. Covering windows and tidying up will not last, so go for full re-vamp and try and create some kind of different shopping experience that will mark the town out as Kirkcudbright, Castle Douglas etc have achieved.</p>

				<p>Stranraer has so much potential but doesn't want to introduce high street business. Make the town look more inviting, less run down and dirty looking. Especially around North strand street with the sightly bins and burnt out building.</p> <p>I do understand the importance of keeping things local but without some big name companies that create footfall, the smaller local business will struggle. Make Stranraer more inviting to a few high street chains and smaller business will thrive off the back of them.</p>	<p>I thinking addressing the lack of stuff for teenagers and family activities that can be done regardless of weather and in the evenings is important. Having a bowling alley/arcade/mini cinema idea with a burger diner/food outlet will bring jobs and keep teenagers safe.</p>

					Previously when there were ideas to bring new stores or opportunities to the town businessmen vetoed this and the council does not help businesses stay in town. All we have are hairdressers, cafes and charity shops there is nothing in the town and the transport links are appalling	There are so many opportunities to make Stranraer somewhere that the young people want to come back and raise families if the opportunities and economy support this. Look to Blackpool and beamish for ideas. Already when disembarking the train station you are walking into a deprived wilderness

When we established Agnew parkrun, we tried to have it named West Pier parkrun, as part of it runs on the pier; however, parkrun HQ insisted it was named after the actual park. 269	DG9	44	Don't know		Why transform empty shops into housing when it would mean even less shops in town for residents. We need places for teenagers to go which in turn would get them off the streets and hopefully less vandalism.	Bring back traffic wardens and allocate more disabled parking spaces. Or give the police the authority to give out fines. No idea if this is kind of thing your looking but it's what the town needs in my opinion.

276	DG9	45	Yes - I like it!	The town is desperately needing investment	I would have put the dick hill hub higher but the town centre is badly needing sorted. People avoid the town because of all the empty buildings, run down appearance, people drunk and on drugs taking over the castle green every day so others are afraid to sit and enjoy the area. We have so much potential in this area, it's heart breaking to see it all go so bad.	Thank you, we need this

				I support it because it addresses what I see as the worst aspects of the town at the moment -- the town centre and the East pier.		<p>The 6 priorities look good. One issue I have is that none of the plans extend east beyond the railway line. When considering East Pier improvements I feel the promenade along Cairnryan Road should be included. It has been mentioned a few times about having a single waterfront running from the Broadstone to Innermessan. That idea seems to be missing here.</p> <p>A concern I have is how people are vetted. Eg for the town centre regeneration I can imagine parasitic landlords rubbing their hands at the thought of this investment.</p> <p>Finally, getting buy-in from Stranraer residents could be difficult. Common complaints are that these projects don't benefit regular residents.</p> <p>I'd also like to know that this money isn't being spent on work that is the responsibility of property owners. Surely building owners are required to maintain properties to a reasonable standard -- eg removing trees/plants from guttering and having a presentable facade?</p>

				Stranraer is dying with no footfall on the streets, the place looks a mess and does not invite holiday makers to visit. More community activities would be great.	Get the shop fronts fixed and fill the shops to try to entice customers to shop local. Laser tag, bowling are a great idea! Go karting on the pier is another suggestion or little fish orientated cafes using the local fishermen for supplies. PARKING! bring back the warden and make the town centre for buses and store deliveries ONLY!

					<p>The eyesore that is the East pier must be prioritised as it has sat in its current disgraceful state for too long and is 'holding the town back' from successful regeneration.</p> <p>Interesting to have an option that involves childcare as this is so needed locally. There are not enough childcare spaces currently to allow parents a choice of working/ returning to work. Long wait lists, lack of childminders and inflexible hours at childcare facilities mean in real terms that young parents have no choice but to stay home to look after their children. The benefits of good childcare to the child are countless and vital to get young adults back into work.</p>

It has had a huge amount of money spent on new housing and play parks.</p> <p>Money would be better spent on educating people to clean up their gardens, not dump rubbish everywhere or write/spray graffiti.</p>	<p>*Doubt the bowling alley/laser tag will work long term. The Ryan Centre is an excellent facility that people don't use or appreciate and has to be subsidised by the council to keep it open. People won't spend the money.</p> <p>*There are certain private dwellings on the front that look shabby and need repainting. They should be approached and offered financial assistance, if needed, to tidy up their buildings.</p> <p>*The owners of the land where Stena used to be opposite the NW Castle, should be made to tidy it up, clear the weeds etc.</p> <p>This piece of land is an eyesore and should be top priority to get sorted.</p>

				<p>The 6 suggested projects are diverse and will make a big difference in attracting locals and tourists into the town.</p> <p>The funding for the town improvement projects looks a bit on the small side and I would imagine will have to be prioritised or diluted down to spread it across the likely numbers of applicants. George Hotel could swallow that up on its own so should not form part of this. Key road nodes into the town centre should also form part of the 'centre' definition eg Arkhouse road and out to Northwest Castle.</p> <p>Thoroughfares could be brightened up if they form part of the scheme.</p>	<p>Big makeover and town centre revival could be lumped into one bigger project, may reduce costs. Could outdoor nursery project not form part of a revamp of existing play areas eg Agnew Park with a view to doing a smaller upgrade on these ?</p>

				<p>There is no doubt that Stranraer has suffered some depression since the ferry ports moved in 2015. An injection of financial support as well as motivating support from those that live, work, and visit Stranraer will definitely improve the town. This will improve the quality of life for local residents and increase popularity among visitors.</p>	<p>For me, I'd prefer to concentrate efforts into projects that will be of benefit to the whole community rather than projects that benefit a smaller sector of the community. This has very much driven the ranking I have given the priorities. I hope the project as a whole takes the view that pumping cash into a project that only benefits a small percentage of the community is not such a great benefit as pumping cash into projects that will benefit everyone. The focus must be on maximising the number of people benefitted rather than focussing on quick wins.</p>	<p>I'd just like to thank Barbara and the team for the amount of work put into this. It is clear that the project has been run conscientiously. My background is in risk, so much as I tend to raise obstacles, it is important to understand what those blockers are to either resolve them, eliminate them, or understand that that task cannot progress. Risk assessment is paramount to any project activity. Therefore, I'd be happy to contribute my thoughts and opinions, however, having just moved up here, my time is limited so much as I would like to help, my time prevents me from getting really stuck in on activities.</p>

396	DG9	58	Yes - I like it!	<p>To promote and develop our town for current and future generations .</p> <p>With the right strategic vision , project management same ,we could be a thriving town again , boost community economy by employment opportunities and attract visitors to come .</p>	<p>Please ensure fully updates on the survey are advertised not just digitally but in local paper supermarkets and prominent community hubs to share the knowledge .</p>	<p>Would like to know timescales for this to happen from procurement to completion once the consultation has been completed .</p>
397	DG9	58	Yes - I like it!	<p>I like the changes so far to update parts of the town. I think it will help to instill and grow a sense of pride particularly with younger Stranraer residents.</p>	<p>Involve young people at Stranraer Academy so they become stakeholders. Set up a youth council with some powers.</p> <p>ALSO</p> <p>Encourage a sense of pride in neighbourhoods by running best street 'before and after' transformations WITH PRIZES to incentivise.</p>	
398	DG9	58	Yes - I like it!	<p>It's forward thinking, and ambitious.</p>		<p>Don't let one thing gobble up all the money, some may take an awful lot. Be decisive about where the station is best placed...but keep the railway buffs happy. Include the cockle shore along to Innermessan, it's popular with wind/kite surfers and bird watchers alike. It's a positive plan.</p>

399	DG9	58	Yes - I like it!	A clear vision for Stranraer to become a destination for tourism coupled with a sustainable vision for a livable, resilient town for locals. I love the focus on community food growing and supporting stranraer to be creative and innovative	Needs to be a mix between 'physical' stuff and 'activities' - meaning that there needs to be support for groups to put on events and trial businesses etc - it is all part of the mix of making a vibrant place, we need to pay for the activities that fill the new spaces that we are making	Thanks for all you are doing and the transparent and welcoming way that you are doing it

404	DG9	58	Yes - I like it!	Stranraer has a unique opportunity to become a water sports facility with Lochryan as a safe haven. Boost the below priorities will encourage further investment. The Skiffie world championship showed what a unique area we have and we should capitalise on it	Waterfront first as it's the eyesore that could make visitors turn away

405	DG9	58	Yes - I like it!	It covers a wide range of projects highlighted by the whole community	Assumed 1 was most important. East pier bottom of this list as I believe it's a longer term goal fraught with difficulties. However needs to be here. Might have given the facelift a bigger share and bumped it up the list?	Our list of projects seems small scale in the context of other projects happening/incoming funds that are also part of the town plan .

407	DG9	59	Yes - I like it!	Stranraer is a wonderful town that is need of investment to increase living standards and prosperity.		Good luck
408	DG9	59	No - I don't	None of the projects create a recurring revenue stream to support the future; they are all "One off hits", a "sugar" hit of capital ( and in wrong things!). Who did you ask???? Might as well hand the cash out at a street corner; "helicopter cash". It should be invested in projects that provide at least £250k per annum on £5m. Every project here will consume cash and never provide it.	On the basis that ALL of the choices are wrong based on my comments re sustainability, the above is the best I can do	

	A	B	C	D	E	F
409	DG9	59	Don't know	I'd like to know more before I decide. The money is a good opportunity for the whole town not one area.	<p>Why always Dicks hill? They have had various ventures &amp; they've not continued. We already have a family hub, in the old dicks bill creche make more use of it.</p> <p>We need to spend money on the whole town that benefits everyone not just one area. We have loads of nursery space we don't need an outdoor one. We want to attract visitors &amp; have more to do for our bored youth</p>	Let the people who live here & are local & invested make decisions.
410	DG9	59	Yes - I like it!		The train does not need to be at the end of a derelict harbour, we need it moved down and all transport links there for passengers, bus, taxis, people picking up passengers, a nice cafe and place to wait	
411	DG9	59	Yes - I like it!	This was once a pretty, and busy port town which requires revamping to bring it into the 21st century

412	DG9	59	Yes - I like it!	Feels varied and has wide appeal and also seems to address some of the fundamentals. I think connectivity is missing, i.e. how Stranraer connects with Dumfries, Ayr and more importantly Glasgow as changing trains in Ayr puts visitors off.		As mentioned in the previous box, rail connectivity to Glasgow seems to be missing.
413	DG9	59	Yes - I like it!	The area deserves and needs investment in the community

420	DG9	60	Yes - I like it!	Something needs to be done. The town has such unused potential. It used to be a great town. We need to bring it back to that.		I hope all of this can go ahead. I have lived here all my life and it's sad to watch the decline of this town. We have an amazing waterfront which in my opinion is not being fully utilised for the public. That waterfront used to be mobbed. The marine lake being turned into a car park was the worst decision ever made.

	A	B	C	D	E	F
421	DG9	60	Yes - I like it!	The area needs a lot of money invested.	Shops should be looking after their own repairs.	Knock down the George Hotel and repeater station, maybe add the Arches to that as well

423	DG9	60	Yes - I like it!			
424	DG9	60	Don't know	All for doing the Waterfront up and town centre but a BIG NO to pedestrianisation!	Waterfront is the first priority. Why is there not a priority section?!	I am all for these projects but NOT for turning Stranraer into a pedestrianisation, no parking on streets, cycle lanes. People can walk, cycle freely within Stranraer and safely! How is Dumfries and Ayr High Street doing since pedestrianisation? I hope you publish the comments?
425	DG8	61	Yes - I like it!	Stranraer has so many hidden gems, but many people in Wigtownshire look down on it, and are very negative about the facilities and people. We live 10 miles outside Stranraer, but still use it as our main "go to" for shops and services. Although we always use local services in Stranraer where possible, I'm afraid we still wince when we take visitors, because of the state of some of the buildings and the pier - it could all just be SO much nicer with some investment, and has so much to offer.	My top three are pretty interchangeable, but I have placed Big Makeover as number 1 because it's one of the cheaper options, but would make such a big initial impact - a bit like the mural opposite Fig & Olive! The buildings, frontages etc. are what people first notice when they visit.	Just good to see something is being done! Keep up the good work.

426	DG8	61	Yes - I like it!	<p>Since the ferries have left, the Town has struggled. Buildings have fallen into disrepair and the waterfront - which has so much potential, looks tired. This could be a wonderful space for tourists and locals to enjoy and bring much needed jobs to the area.</p>	<p>The east pier, improvements to shop fronts and streets and repurposing empty shops have to be the top priorities. These affect visitors and local people. In the last year I have seen some improvements starting to take place and this gives people pride in the place they live and gives them incentives to get involved.</p>	

	A	B	C	D	E	F
427	DG9	61	Yes - I like it!		<p>East Pier and town centre are currently a disgrace to Dumfries &amp; Galloway Council. These need to be priority. Once we get them sorted and visitors want to come back to Stranraer - the other things will fall into place, ie. shops will open up again and the town will start to look busy and cared for.</p> <p>The George Hotel needs to come down - possibly rebuilt to look exactly the same if this needs to happen. The Arches needs to be pulled down before it falls on top of people.</p> <p>Stranraer could be beautiful. How many towns have the outlook we have - Loch Ryan is beautiful - lets make the most of our wee town.</p>	
428	DG9	61	Yes - I like it!	<p>Stranraer and surrounding area has a stunning landscape however it is in desperate need of regeneration and this fund would support this.</p>	All great ideas

					I think that the priority for Stranraer should be to attract more visitors to the town. I agree that more should be done to create job opportunities for the young before they get into the cycle of living on benefits. Can something be done to control the number of HGVS, camper vans and caravans that park in the waterfront car parks as it is unsightly and takes away from the beauty of the harbour.

437	DG9	61	Yes - I like it!	Town needs an uplift now just for local ripple but to attract more visitors and keep visitors returning		This town could be a gold mine for tourism. Spend money on things that suit locals and visitors alike
438	DG9	61	Yes - I like it!	This plan is incredible, well done to all .	Difficult to rank as all have merit, however I think a Big Makeover, instilling pride in place will be a catalyst for the town to move forward should be first priority.	Looking forward to riding the wave of change
439	DG9	61	Yes - I like it!	This is an opportunity to encourage more visitors to the town boosting income for all sorts of town enterprises whilst giving local people some much needed extra opportunities for both leisure and jobs.	It's very difficult to rank them I've found but prioritising uplifting the marina view and facilities will bring more visitors to the town along with the other initiatives

443	DG9	62	Yes - I like it!	<p>The waterfront really lets the town down and I strongly believe the town would benefit from expenditure to make the east pier (waste ground) into a usable space for the community.</p> <p>I also particularly like the idea to revive and rejuvenate the town centre and buildings / shopfronts as this would make the town more welcoming for residents and visitors.</p>	<p>Please do something useful with the east pier it is a real eyesore and a major let down for the town.</p>

446	DG9	62	No - I don't	<p>Money needs to be spent on tidying up Stranraer not for boat owners and selected few areas. The town centre needs to be made more attractive for visitors</p>	<p>Town centre and approach to railway station needs improvement</p>	<p>Run Stranraer from Stranraer not Dumfries. People in this area need shops not boats in a upmarket marina that locals can't afford</p>

				Stranraer has much untapped potential but also suffers from apparent decline in terms of real estate around the town, and lack of new businesses and leisure activities and in turn lack of employment opportunities. The opportunity to access funding to begin addressing such issues should not be missed.	Has any mapping been done of already existing funding sources (Council/govt/other) or potential funding sources that may map to 6 priorities? This might help us target funding to areas that are unlikely to find funding elsewhere.	Great work 🙌 hope locals seize this opportunity and that we can keep momentum over time. It may be important to highlight if there is a need for funding/volunteers/sponsorship to keep a core team pushing this work forward if funding comes through. Or who will manage the funds.

449	DG9	63	Don't know	<p>It's a bit of a airy fairy pipe dream.</p> <p>What would you do for Stranraer if you had 5 million? No business talk beyond that. Some proposals here need to be able to be able to sustain themselves and provide payment to employees and running costs, would that be relying on other fund applications. Some have been done before (shop front grants) and made no difference.</p> <p>The come to a meeting and let's have soup and listen to music really shows how casual this project is. I think this is disrespectful to a town where the future looks bleak and I only see short term benefits if any from most of these suggestions, and waste of funding if granted from others.</p>	<p>East pier - event space is not required, Oyster festival, world skiffies etc managed very well. Stranraer won't host bigger events it's not central or large enough to be considered. What good is a transport hub for the few local people who use the few buses and fewer trains!!</p> <p>Dicks Hill has had enough funding and would be fighting to gain more funding year after year for this project.</p> <p>Childcare Nursery is required and if in private ownership would do well but how would it work, pay for itself, keep ahead of legislation. Big questions would it be run by Education Dept. Also £500000 I think more like 2/3 million with all the health and safety requirements.</p> <p>Makeover for town. Not again!! And please not murals! We do need one way system</p>	<p>Sadly, I don't see the fix for Stranraer in any projects above.</p> <p>You need projects that will be bought into and run as private businesses by entrepreneurs. Then they will have a desire to make them succeed. Example just now is Stranraer watersports, no incentive to make it pay by people running it. They will get their wages anyway.</p> <p>Stranraer of old had the Ferry companies to support it. As a community it was taken care of. Jobs, tourists, and the wider economic benefits that all these things brought. The people never had to get out and do things for their community. Good luck getting a response from the majority.</p> <p>I am busy running my business and have no extra time to be involved in this as I do see it as being a pointless project.</p>
450	DG9	63	Yes - I like it!			<p>from a lovely thriving town over the years has been allowed to become an eyesore.</p> <p>let's concentrate on bringing the town back up to a place we all love to live and encourage tourists</p>

454	DG9	63	Yes - I like it!			
455	DG9	63	Don't know	Don't know what it entails!	I find the big makeover objectionable on the grounds that we are paying for property already owned by somebody else. Find out who owns them, make them by building standards put there own hand in there pockets or hand them over as compulsory purchases which would put them under local control & maintenance.	Revive: town centre living and Sanctuary nursery would grow the economy. They represent essential elements of the plan. Wet weather and east pier may improve footfall but big makeover and Dickhill hub are mere vanity projects. Dickshill hub was tried years ago and was used by a small handful of Inhabitants. I have already clarified my objection to the Big Makover in an earlier paragraph.
456	DG9	63	Yes - I like it!	The town needs wide ranging transformation and this investment will help.	Love all these ideas. By ranking, doesn't mean I don't vote for the lower ones... they are just a bit higher up Maslow's hierarchy of needs ;-)  Wet Weather stuff has been needed for decades but the East Pier is a blight on the landscape.

					<p>Dicks Hill should be a priority to honour a previous promise and have a balanced support/development for the townspeople of Stranraer.</p> <p>East pier will not be sorted short term but visitor car parking needed as water sport events participants will by necessity take over Agnew park car park. Also cycle route participants need long term parking.</p> <p>Relocate events like Oyster Festival to East pier to combine event and parking.</p> <p>East pier is a vast area and part should be considered for town residents whose profession is lorry driving to be able to park overnight. Repurpose rather than build on green land beside the Commerce industrial site.</p>	<p>Lack of Revenue funding needs to be addressed otherwise sustainability of these projects will be a problem. The town needs a full time professional person to unlock potential future funding to ensure continuity of projects.</p> <p>This is a good start</p>

467	DG9	64	Yes - I like it!	There is a lot of enthusiasm to improve the town and the plan would go a long way to improve the town and the local area.		As a newcomer to this area, I'm surprised by how little publicity there is for events. There should be more publicity around the town for significant events like the Oyster Festival, including banners on the main approach roads.
468	DG9	64	Yes - I like it!	Stranraer deserves some capital investment to revive it to its former glory and to pull the community together after Covid.	<p>1-Transport is a key driver for economic opportunities. A hub would help to let residents move around for work and leisure. Visitors would benefit from better connections.</p> <p>2-There is a current push toward improving children's mental health and well-being. An outdoor nursery would provide for that, as well as provide employment for staff and open up work choices for parents.</p> <p>3-More and more, people are looking to use their leisure time in creative and fun ways. Given the Scottish weather this project could offer a valuable resource for the area.</p> <p>4-Locals and visitors would use the high streets if they looked more interesting and inviting. This would attract day trippers, visitors and provide a vibrant town centre with much needed housing.</p> <p>5-As above, if the environment was tidied up and made more</p>	<p>I sincerely hope the ambitious projects get the funding they need and we see Stranraer go from strength to strength. Looking forward to watching the progress.</p>

470	DG9	64	Yes - I like it!		Town needs revamp and waterfront priority enough spaces to fill in millennium,George hotel and ryan centre for groups	
471	DG9	65	Yes - I like it!		No, other than very difficult to do as Stranraer is in need of all these things to lift the spirits of the people who live here.	Me and my husband chose move and live here in Stranraer. We felt it had to much offer in some respects. However, I do feel the people have been let down as regards the town centre ...which is very unsightly in many parts and has been basically left to decay. This of course, is detrimental to the mental health and well-being of the people in the community. Also when family/friends visit, they cannot understand why a place of such natural beauty, has a small, yet neglected town. I shall look forward to seeing the transformation unfold over few years.
472	DG9	65	Yes - I like it!	Stranraer has been left to wilt and is always the poor relation when it comes to investment. I am totally in favour of improving Stranraer.	All are deserving	Good luck

				I support it as Stranraer matters !! A 'facelift' /investment is long overdue !	<p>Reviving the town centre including a makeover would make the area so much more appealing</p> <p>I feel however that it is very important to improve the area around the railway station .This barren area is extremely unappealing creating a very poor first impression for visitors and an unpleasant area for locals walking and using the train .</p> <p>I'm sure people feel uncomfortable walking from the train especially in the dark.</p>	I feel this is a wonderful opportunity to improve the amenities / facilities in a beautiful part of SW Scotland . It can become an area locals can feel proud to call home and visitors will wish to return to !

				It lacks vision	<p>The idea of a wet weather escape in the town centre would make the town a Mecca for antisocial behaviour, if it is to go anywhere it should be on the pier site but this sort of operation is quite capable of making a profit without public money.</p> <p>Equally problematic is the redevelopment of town centre commercial sites for residential use, only upper floors should be converted and where possible they should be for owner occupiers. Low status housing will only concentrate the problems that many less fortunate individuals face and could create a ghetto reinforcing those very difficulties.</p>	<p>The Pier site offers a one off opportunity to create something that will both draw people to Stranraer and provide a facility for the town. The current proposal lacks a sense of focus with talk of a learn to cycle area, bus stop, taxi rank etc. it smacks of trying to find a way of spending the money on hard features like tarmac.</p> <p>Why not turn the East Pier into a park and garden, maybe utilising the skills of Dumfries House apprentices to nurture a space that can host concerts, sculpture trails ( Galloway has a legacy of sculptors in particular). If there are sufficient funds a large covered open space at the entrance to the park could help offset the unhelpful tendency of the heavens to open. Tie in the RHS, Dumfries House and Tate modern and you could end up with something of international significance.</p> <p>Scrap the proposed 1.2 million funding for the wet weather hub and the £1.5 million for the town centre which would benefit far more by a switch in perception of Stranraer from being an ex ferry town to an ancient historic honey pot where people from far and wide wish to come to visit, to live and to join a thriving community.</p>

478	DG9	65	Yes - I like it!	<p>This is a rare chance to secure funding to improve our town. This area has so much to offer, and we need to exploit our strengths. Stranraer is a great place to raise young children, but there is not much to appeal to teens and both local and visiting. Having said that, I think we need to exploit the amazing waterfront &amp; water sports opportunities, as well as the wonderful gardens we have locally.</p>	Not easy to choose!	<p>It's a small thing, but nowadays people don't always read the local press AND not everyone does Facebook or other social media, so I do think there is a place for a central space to advertise local events- this would especially help visitors to the town. Maybe even printed leaflets like the old 'What's On' especially in the summer. At the moment, it's easy to miss local events, simply through not knowing they were on.</p>
479	DG9	65	Yes - I like it!	Town needs revitalised.

482	DG9	65	Yes - I like it!	Having lived here for the last 3 years ,Stranraer has been run down and needs a massive input to bring it back to life. The waterfront is no more than a glorified car park and has so much potential. There is so much that Stranraer could offer as part of the sw300 and tourism as a whole. This area is part of the undiscovered Scotland, lets make it discoverable	The waterfront is a big car park and is missing out on so much potential, the marina is underused. There are many country events that could be housed here from tall ships, round Britain racing, rallying, water events, sea life and much more	
483	DG9	65	Yes - I like it!		I would hope that if the town centre can be revived then maybe more businesses would look to invest in the area . Also there is a lack of activities for when the weather is bad , people coming to the area on holiday would spend more if there was some kind of indoor centre (eg : ten pin bowling , wall climbing )

486	DG9	65	Yes - I like it!	Stranraer needs a major boost	<p>The town desperately needs to be tidied up. Having shrubs growing out of gutters, state of closed down shops etc is a massive hindrance to tourism. Stranraer could easily become a destination. Practical solutions rather than wishy washy ideas focussing on buzz words such as community, art and wellbeing are needed.</p> <p>The council should give much more support to the Development Trust.</p>	<p>There are so many different things going on now that everyone is hopelessly confused. it all needs to be drawn together so oOne can understand the different bodies involved, who runs them, the grants and timings.</p>
487	DG8	66	Yes - I like it!		<p>It would be nice to see things done for everyone not just the self interested who can see the prospect of making a fast buck.</p>

495	DG9	66	Yes - I like it!	Any money used to redevelop Stranraer is positive for the whole community and has potential to further improve the town.

497	DG8	67	Yes - I like it!		If the town centre was more attractive to people, prosperity should follow.	
498	DG8	67	No - I don't	There is a large proportion of older people in this area - where is there anything for them? Some older people don't just want to sit about chatting. Exercise facilities are needed. Ryan Centre needs a makeover - the changing rooms are a disgrace!	As previously mentioned- what about older people.	There needs to be more larger retailers in Stranraer like perhaps another supermarket B & M, Wickes, Wilko for instance. Then people would not need to travel to other towns to get what they need. That would also reduce people's carbon footprints. We have the big Blackparks industrial estate just on the outskirts of town crying out for investment. I think we need a more common sense approach
499	DG9	67	Yes - I like it!		Property owners in town should take a bit of time to look after their properties, take some pride in your own space.

501	DG9	67	Yes - I like it!	<p>I want to see Stranraer thrive, I want to see shops opening not closing, I want to see jobs, I want to see tourists come here then go away saying they will be back.</p> <p>The potential is enormous, we should be exploiting it.</p>	<p>The town centre of all places is what makes or breaks a town, currently ours is tired and worn. Improve that and stranraer will thrive.</p>	<p>Yes, the west pier has a section partitioned off, for what looks like a minor fix, if we can't even fix that what chance the rest.</p>

504	DG9	67	Yes - I like it!	<p>Got to be proactive and get Stranraer rejuvenated. Lots of great people in the town but we want to have a thriving place for everyone.</p>	<p>Stranraer lacks affordable housing for those starting on the property ladder or wanting a good space to rent. Retirement flats would be another suggestion and more accessible housing to keep people at home instead of in care. Need opportunities for young people too and places they will feel proud to look after.</p>	

	A	B	C	D	E	F
505	DG9	67	Don't know	Lack of clear information on the plans and how the choices were arrived at. Why is Dicks Hill the only area getting mentioned for help?	<p>I believe that we need to resolve transport and connections before we can solve a lot of the towns issues. Then we need to encourage tourists and with Stranraer's climate we need indoor entertainment. There is a housing issue so using waste town centre space makes sense. The shops we have left need upgrading but I believe that the shop owners need to take some responsibility and also to stock products people want. Too often I have been forced to go online.</p> <p>Finally I again ask why Dicks Hill is the only area to be mentioned?</p>	
506	DG9	67	Yes - I like it!	Anything to regenerate the area must be a bonus		
507	DG9	67	Yes - I like it!	Better facilities makes the toon more attractive for us that live here and visitors.		No Parkfest this year due to prohibitive cost of big tent hire. If Stranraer had it's own marquee/tent set up at Agnew Park it could be used for rock, country, folk, ska music festivals and Scottish Week throughout the summer.

512	DG9	67	Yes - I like it!	<p>The demise of the Ferry Terminal has had an adverse effect on Stranraer. As an 'incomer' I can see the areas of neglect (sadly not exclusive to Stranraer) and I welcome any sustainable plan for the regeneration of Stranraer and its environs. The plan has to stimulate the local economy and also bring revenue and investment from outside.</p>	<p>Priorities 1 and 2 would create an attraction and also give incentive for visitors in the pier area to spill over into the centre and spend.</p>	<p>Has to be sustainable as future funding packages are always uncertain. Has to engage primarily with Stranraer but will need to be a major attraction for D&amp;G with strong promotion through National agencies</p>
513	DG9	67	Yes - I like it!	Town needs reinvigorated, both for residents, visitors & the local economy.	<p>1st impressions on entering town are awful. Need to improve what is already in town.</p>

516	DG9	68	Don't know		<p>Why not do something for aged and disabled people as Stranraer is way behind other communities in helping these people. Apart from the day centre there is nothing, half the towns pavements and streets are not suitable for wheelchairs or scooters. There is limited parking in town centre for the disabled. We have got to have things for families but don't forget the old and disabled as these are the people who built this town so please don't turn your back on them.</p>	
517	DG9	68	Yes - I like it!	<p>I believe it's for the benefit of the town and as a Community Councillor I support any opportunity that raises finance for its improvement.</p>	<p>I don't believe that we can rely on tourism and a marina for the regeneration of the town. The only way that will happen is to bring permanent jobs here to stop your young people moving away. That will require better infrastructure and that should be the responsibility of Holyrood to provide suitable roads.</p>	<p>I just hope this works and we get the finance.</p>

518	DG9	68	Don't know	Trabsport Hub should be at Railway bridge.Have a platform to save dark and dangerous walk to station at end of pier.There should be a small 24/7 waiting room with hot/cold drinks and snacks/sandwiches.With toilets open all day.	Put shopfronts last as businesses have already received funding before. We need to develop access to watersports with changing facilities and showers on seafront before throwing more money at shopfronts.	Needs to be more wet weather facilities for all ages.Reuse Marine Lake carpark for purpose built ten pin bowling and a laser quest.A town centre site would have no car parking.In wet weather last thing you want is a trek in rain to venue.You'd be soaked before you got there.Sited near harbour wall and views to loch won't be restricted.

Let's break the cycle and establish Stranraer as a top destination of choice.	First and second choices start the ball rolling. Everything else follows on.	Let's get this done.
534	DG9	70	Yes - I like it!	To make Stranraer more attractive for holidaymakers and visitors and also for locals to be proud of their town		Would like stranraer to be attractive welcome visitors and holidaymakers encourage them to come back and bring money into the town

Fingers crossed that it all goes well and good luck to everyone.

538	DG9	71	Yes - I like it!	The town is dying on its feet since Stena left. Shops lying empty, derelict buildings around the place, and streets that are not safe at night. This is something that might go a long way to solving some of these problems.	No.	Good luck with the whole thing.

				<p>I have lived in this area for only 6 years and in that time - sometime due to Covid - I have seen many changes like shops shutting down. Also, developments which have been discussed for years before I came here and are still not effected - like the water front/pier after the ferries moved on - and the George Hotel.</p> <p>I now think it high time that work was commenced.</p>		<p>Please just get on with it !!</p>

546	DG9	72	Yes - I like it!	<p>Something needs to be done or Stranraer will die!! We can't rely on others, we must help ourselves. As an older person I don't have the best of physical health but I will still give support where I can. I firmly believe children are our future and they must be given every opportunity to participate. This of course includes their parents and carers. A team effort!!</p>	<p>It has been really difficult to make choices, each one of these proposals is equally valid.</p>	<p>At last something seems to be getting done for the town! I do hope people's visions will materialise.</p>
547	DG9	73	Yes - I like it!	<p>Not enough activities,</p>		
548	DG9	73	Yes - I like it!	<p>If it brings in funds to the area then I support it, though I will remain a little sceptical until I see some results.</p>	<p>If the town centre was a viable business area, then much of the work would have already happened through private investment. Gross failure by council and others has left us with a run down town centre. Therefore, East Pier, and Big Makeover would be the best options to go some way to redressing the situation and to see more folk walking down the 'High Street.'</p>	<p>Presumably none of the funds will be used for the George Hotel, which is a disgrace on the area and a failure by the council. Sadly there appears to be no problem in spending the public purse with no results to show.</p>

					Since moving here last year my biggest disappointment has been the disgraceful state of the town centre, litter weeds run down and derelict buildings. Not just the town centre, as you enter on the coast road from the ferry terminal the first eyesore is a derelict building followed by the abandoned old ferry terminal. Dereliction of duty by the establishment in my opinion!

					The town is a dump. the very first building entering from North is a ruin. Deal with that first. The railway station needs to be relocated to opposite Tesco combined with modern buss terminus. Many buildings in town in ruins. The wasteland of former ferry terminal needs to be redeveloped now. And just getting to/from Strannraer is a nightmare by road.	Just do something !

561	DG1		Yes - I like it!	I believe it is the result of hard work and effort and it must be supported and celebrated when time comes. Involving the community from the very beginning does a huge difference to what is expected and it is an excellent practice. More importantly, having women leading and steering the plan is just amazing! Lots of admiration to them!	<p>First of all congratulation to the whole team for putting together this promising piece of work. Best of lucks with this.</p> <p>Secondly, I believe the place plan document is missing an emphasis on the current synergies with other ongoing efforts in the town. There is a important momentum in Stranraer at the moment in terms of active travel and regeneration, and highlighting this in the plan could be useful for more points when being assessed in the bid process. Based on that, highlighting the following would be relevant.</p> <p>The Council is working on a Stranraer Active travel Links assessment which will identify a set of opportunities to improve how people walk, wheel, and cycle. This is significantly relevant to the East Pier project and the town regeneration.</p> <p>Likewise, additional special remarks could be done to the</p>	Keep up the good work! As a frequent user it would make getting about so much easier. A proper area to shelter while waiting with facilities would be a big help too .
565	DG9		Don't know		Every enterprise in this region with money gives to the children. low income families and those on benefits. They are better off than their elders ever were. That is not poverty. As for the claim that food banks are needed - it is thus the world over, nothing to do with politics in the UK. Name any country which does not have food banks or government provided access to food apart from regions where aid is required.. AI says there are none. Social life for older residents who are not wealthy or fit is restricted We can sit in and watch the box (sedentary not good) or go to the pub (alcohol not good) or sit at home alone. Where is the evening social which does not need money and allows social interaction? Stranraer is an old town with an older populace because youngsters with prospects leave as there are no prospects currently. Absolutely	As said above.

				<p>Stranraer and its surrounding villages is an amazing place to live and work. It is time to look to the future instead of holding on too tightly to the past. Stranraer has so much to offer and it is important to create opportunities for the local community to thrive and work to prevent outward migration. Congratulations and thank you for the work you have done on this project to date.</p>	<p>Providing local people, particularly teenagers, with activities is much needed to help change the ongoing culture and provide positive outlets.</p>

				<p>I don't feel some of it has been well thought out but we do need something done. I worry about community ownership as if funding dries up places that are developed are left to deteriorate. Where are the people who are going to come forward to run some of these things?</p>	<p>The only way to get a proper transport hub is to move the station to the top of the pier. Locals have wanted this for decades. Wet weather escape sounds super but how will it pay for itself. Families don't have a lot of money to spend and we are a small town. I am very worried about the development at black stank which is teeming with nature. Lots of people already use this area as the walking route and enjoy the quiet atmosphere. An outdoor nursery will not work as how many days will it be feasible. There is lots of nursery provision with training for jobs as it is. Sorry to sound negative. There's lots of good ideas I just think a lot of it hasn't been thought through properly. A glossy booklet does not mean long term sustainability.</p>	<p>Well done for this and maybe something will come of it. Let's see when the 1st brick gets laid on the George Hotel site before we get carried away!! The site map for sanctuary is wrong as it extends over a housing area , a private caravan site and agricultural land.</p>

				<p>Stranraer needs to clean up. Dumfries and Galloway council need a kick in the pants especially where the repeater station, George Hotel and the old stena/train station ground at the harbour area are concerned. Stranraer doesn't need another nursery wild life area. We are well catered for with busy bees, school nurseries and the one at leswalt. The town centre is filthy, neglected shops and derelict buildings. Dickshill has had more money spent on it than any other part of town over the years. We dont need yet another centre.</p>
